

## Addendum 4

### Estimated Quantities

An error was made in section 4.03 with the estimated quantity of mic stations. Please see the revision below.

#### 4.03 CURRENT AND NEW SYSTEM CONFIGURATION DETAILS

The Airport's current system is a combination of IED, Crown and JBL equipment. The new PA system must support the ESTIMATED quantities\* below and allow for future expansion if needed.

ITEM	CURRENT	NEW
<b>Amplifiers</b>	28 x 2-channel	?
<b>Mic Stations</b>	15	<b>35**</b>
<b>Zones</b>	35-40	40-45
<b>Speakers (Terminal + MMTF)</b>	607	607

\* These are estimated counts only and final quantities may vary upon final review and design of PA system

\*\* Count includes three (3) full-featured mic stations and 32 standard mic stations
